

for your  
future.

# Release & IT Coordination Engineer (m/f/x)

## HARD FACTS

-  **Gumpoldskirchen / Wien**
-  **Full-time**
-  **ab € 58.000 brutto / Jahr**
-  **Hybrid (remote & on-site)**
-  **Attractive Benefits**

## YOUR TECH-PART IN OUR TEAM

- Planning and coordination of releases for the release train, the infrastructure and any special releases
- Collection and communication of release content and progress from planning to successful rollout
- Overall view of all release content across all our products in close coordination with all stakeholders
- Tracking of new features and versions in close collaboration with our Scrum teams
- Continuous improvement of the release process and further development of our DevOps tool suite
- Collection and preparation of meaningful release and process KPIs for retrospective and iterative process optimization
- Supporting the implementation and optimization of ITIL-based processes (Event Management, Supplier Management, Incident, Change, and Problem Management), including ITIL-based KPIs (e.g., SLA-KPIs)
- Coordination of cross-departmental initiatives for product optimization from kick-off to proof-of-concept
- Participation in the introduction and maintenance of standardized monitoring and escalation management in cases of KPI threshold violations

## YOUR TECH-STACK

- Several years of practical experience as a release manager, technical project manager or project manager in the IT software development environment
- Long-standing experience in external and internal stakeholder management (systems management, data management, test management, software development teams, ...)
- Ability to keep the big picture in mind to understand the interrelationships of our software artifacts
- Proven experience in the implementation and optimization of ITIL processes
- Self-directed, independent and sustainable work
- Knowledge of the CI/CD pipeline, system environments, quality gates, release process and process design (Gitlab, Argo CD)
- Familiarity with process automation and escalation management, as well as with monitoring systems and KPI-driven optimization
- Good knowledge of German and English, both written and spoken
- Leadership experience is advantageous
